SAR Chronicles

About our Logo: NSEW is our Compass that surrounds all the disasters we train to assist in and the cross is for Search and Res

Volume 1, Issue 1

Safety Tips: Natural Gas

- > Don't rely on your nose alone. Look, listen and smell.
- > Natural Gas is nontoxic but in confined spaces it can displace oxygen, creating an asphyxiation hazard
- > Avoid ignition hazards and contact your local natural gas utility
- > In case of a natural gas fire, evacuate the area and limit your exposure
- > For more info: peoples-gas.firstresponderonline.net

Did you know...

Check out the article written about WPSARDC in the most recent issue of PetConnections- found at many vet offices and pet stores.

FAQ:

What do you do? We are a medical provider under programs administered by the Pennsylvania Department of Human Services. It is our mission to support the vulnerable population we serve, to make their own choices and we are dedicated to the Health, Safety and Independence of all our participants.

What are RDF Transmitters and how do I get one? It is an active system that uses radio direction finding techniques to locate a person. Participants wear a personalized bracelet that emits a tracking signal that can be tracked by a radio receiver and trained law enforcement, EMS and Fire/Rescue personal. Do you have a loved one who wonders? Call us at 412-856-4357 or visit www.operationtakemehome.org to download the WPSARDC Client info Packet

How much do RDF Transmitters cost? RDF transmitters can be covered by an assisted technology waiver. If your loved one has eloped in the past, the service is free. If there is no history of elopement, the transmitters are \$300
